

Today, you'll hear from some of the children about their day!

Group A

We went kayaking and gorge walking. It was really fun and funny because people fell into the gorge a lot. The water was absolutely freezing! The kayaking was a workout on our arms but, once we got to the other side, we made a real campfire and toasted marshmallows, so it was all worth it in the end. Afterwards, we used the charcoal from the fire on our faces to paint beards, moustaches and more! Look forward to the photos!

Group B

We went into the mines today we had to go through a passage and search little sections of the cave. We climbed up inside the mountain, eventually coming out of the top. While climbing, we had to travel up a waterfall by climbing on the rocks. We also used a dinghy to travel across an underwater lake from one section to the other, which was 25 metres deep! We also went down very deep into a dark section of the cave where we all switched off our head lamps and candles so it was completely pitch black. We all stayed quiet to hear how quiet it was so far down, it was amazing! When we were going down the mountain, everyone kept falling over because it was very steep and wet, but we all made it home safely.

Group C

We did rock climbing, abseiling and via ferrata today. All activities that required us to be attached to wires whilst wearing a harness. In rock climbing, we climbed a cliff face high up, in via ferrata we climbed sideways over a moving river that splashed all over us and in abseiling we grappled down backwards, taking small steps until we reached the ground. We had lots of fun clipping ourselves to the wire and dangling over heights. (spot me in the picture below!). As always, we were very determined to reach our goal!

Group D

Today we went to the so called hill but it felt like a mountain! It was really steep, and we were all very tired throughout it. There was lots of rocks to climb on top of, but the sound they made was satisfying. Once we got to the top, it looked really foggy, but we were actually standing in a cloud, that's how high up we were! You would think climbing up is the hard part, but climbing down was way harder! In the van we did a short quiz, and Gabrielle fell asleep on me. We all struggled but finally reached the top, and the view when we was climbing was beautiful.
