

Dear Readers,

I'd like to draw your attention to some newly posted items on the site. Firstly, you might remember the letter I wrote in September regarding the importance of sport and games to our school. Following on from this we have updated our description of PE and games in the curriculum section of the web site.

Secondly, there are some great new photographs in our gallery, there is a section showing harvesting of our school allotments and another of year 5 preparing food from the produce of our harvest.

Please take a look.
